

# Vote NO!

on Nov. 7, 2017 to a  
**NYS Constitutional Convention**

**Why? Because ...**

- x It would cost millions of *taxpayer* dollars
- x It's unnecessary
- x Powerful interest groups could attempt to roll back our basic rights and protections guaranteed in the state Constitution
- x It will *not* be a "People's Convention"
- x There are better ways to spend our money

- x Powerful interest groups could attempt to roll back our basic rights and protections guaranteed in the state Constitution
- x It will *not* be a "People's Convention"
- x There are better ways to spend our money

- X A convention could cost taxpayers upwards of \$100 million**
  - State lawmakers and judges would earn salaries and pension credits as elected officials and as delegates.
  - There is no mandatory end date for a convention—delegates keep meeting and taxpayers keep paying.
- X It's unnecessary.** We don't need a taxpayer-funded convention to change our Constitution. The Constitution has been amended through the legislative process more than 200 times.
- X Already under attack** by corporations and the wealthy are free public education, environmental protections, pension rights, workers' compensation, the right to unionize, and voting rights, among others.
- X It will not be a "People's Convention"**
  - During the last convention in 1967, 4 out of 5 delegates were career politicians, attorneys and Albany insiders, and all of the convention leaders were sitting legislators.
  - Delegates must be elected. Costly campaigns will make it more difficult for ordinary people to run.
- X \$100 million could be used for:**
  - After-school programs for more than 23,000 kids per year.
  - Food for more than 41,000 senior citizens for a year.
  - 625,000 doctors' visits for uninsured patients.
