As I look back on my personal process for making this decision, I would like to challenge each and every one of you to reconsider and reflect on your involvement with the Buffalo Center Chapter.

Consider the Buffalo Center Chapter of UUP “your employment world” and reflect on the words from Michel Jackson’s “Man In The Mirror”:

I’m starting with the man in the mirror.
I’m asking him to change his ways.
And no message could have been any clearer:
If you want to make the world a better place
Take a look at yourself, and then make a change!

Help Us, Join Us, and Make That Change.

Kenneth H. Kern
President, Buffalo Center Chapter UUP

Has Hell Frozen Over?

Heraclitus, a Greek philosopher, has been quoted as saying "change is the only constant in life."

This past December, after two and a half years, Ezra Zubrow announced his retirement from his position as our Buffalo Center UUP Chapter president. As Vice President for Professionals, I was given the option to consider filling the vacant position for the remainder of the term.

Those of you who know me have known my personal strong stance with regards to this position for years. And with consideration into any major decision such as this, I sought out the consultation of some key people. After some very intense discussions with my wife Barbara, Tom Tucker, Ezra and others whose options I deeply value; I made the decision to seek the Chapter’s Board appointment approval to the position.

I would like to formally thank the officers and Chapter Board for their support on this appointment. I look forward to working for you throughout the remainder of this term.

While I believe that the focus of the Buffalo Center UUP Chapter is to ensure your employment rights, I also believe that we have a greater responsibility to ensure that all members of the Buffalo Center UUP are continuing to provide the best possible service they can to our fellow staff, faculty, and more importantly - our students.

Thankful for My Union Membership

Last October my husband and I went to the gorgeous
Island of Santorini, Greece for our daughter’s wedding.
It was supposed to be an event of a lifetime. Unfortunately,
two days before the wedding, the unexpected happened. My husband got into a head on collision with
a bus while he was riding on an ATV. The bus driver
immediately called for an ambulance, which then trans-
ported him to the Public Hospital of Santorini.

As I waited to learn about his condition, I was terrified
not knowing the extent of his injuries. Six hours lat-
er, upon seeing my husband for the first time, I was
shocked by his condition and the condition of the facili-
ties. I realized he was receiving subpar treatment at an
ill-equipped and understaffed hospital and immediately
knew that he would require expert care in Athens. Un-
fortunately, I had no idea how to get him there.

Thankfully, I remembered that I had Assist America's
Insurance card with me. I got the card at a UUP event
years earlier and never left for a trip without it in my wal-
et. I knew it was for travel emergencies, yet I was not
sure what that entailed or how it worked. Not knowing
what the insurance covered, I was in a state of panic
when I called the Assist America Operations Center.
Fortunately, from the moment I made the first call and
spoke with their well-trained service providers, I knew
I had the support of qualified medical personnel that
would get him to where he needed to go.

Assist America’s medical team communicated directly
with the Public Hospital of Santorini staff. They were
immediately concerned with his physical condition.
His vital statistics were not good and the hospital was
unable to provide crucial information about the condition
of his brain and sinuses. As Assist America needed this
information to ensure he was stable enough to airlift to
Athens, they located a private, better-equipped clinic
on the island, where my husband could get an MRI
without further delay. Assist America transported us by
ground ambulance to the Central Clinic of Santorini,
where skilled doctors conducted the necessary tests,
stabilized him, and finally confirmed he was fit for travel
back to Athens on the mainland. It was Assist America’s
professionalism and the questions asked by the medical
team that set us on the right track to get my husband to
Athens where he could receive the quality of healthcare
he needed.

While doctors were preparing my husband for travel,
Assist America arranged for an air ambulance with a full
medical team to transport us to a qualified hospital in
Athens. They also arranged every detail of his evacua-
tion and worked with the local doctors to coordinate the
next steps, leaving me to concentrate on my husband’s
well-being.

As soon as we arrived in Athens, my husband was
admitted into the hospital and immediately taken into
surgery. After multiple surgeries and weeks of recov-
er, he was finally discharged from the hospital. During
the next month of recovery in Athens, Assist American
followed up regularly about his fit-to-fly status. As soon
as my husband was cleared for travel, Assist America
arranged for our repatriation to the United States via
business class commercial flight with car service and
wheelchair assistance.

During our entire stay in Athens, Assist America contact-
ed me daily for a report on his condition. Being in a for-
eign country without convenient and dependable phone
service, I was relieved that Assist America used which-
ever mode of communication was necessary to stay in
touch with me: phone calls, texts, emails, WhatsApp,
FaceTime, and Viber.

Assist America provided, from beginning to end, con-
tinued professionalism, comfort and concern as well as
thorough assessment of my husband’s state of health.
It was an incredible relief to have Assist America at our
device to guide us through all the medical procedures
and logistics. What was a nightmare for us turned into a
manageable situation? Without the expediency of Assist
America and the immediate evacuation to Athens, my
husband might have lost his arm and not had the po-
tential to recover. Today, my husband is doing well and
focusing on his recovery. It will be another 6 to 8-month
for full recovery, but thankfully, he will recover.

Accidents can happen anytime, anywhere. Having the
Assist America card with you as you travel will ensure
you will always have access to the most appropriate
care when you need it the most. Thanks to their expe-
rience and professionalism, they removed the pressure
and anxiety of having to deal with a multitude of health-
care providers and organize medical transportation
logistics, so I could focus on the health and recovery of
my husband.

UUP Buffalo Center Member
Colleagues,

Over the last month, I’ve asked those UUP Buffalo Center Members attending the General Membership Meeting, Department Rep Meetings, Board Meeting, and Officers meeting to reconsider their participation with Vote/Cope.

Now, I would like to reach out to you.

If you currently do not participate in the Vote Cope Program, I would like to personally ask you to reconsider. Currently there are 225 members from the Buffalo Center Chapter who donate to the Program. We need to increase the number of members donating.

Regardless of your political affiliation, Vote Cope funds are currently working towards three major political issues affecting all of us as New York State employees and the SUNY system. These are:

1. Addressing and Funding the Tap Gap
2. Addressing and Funding SUNY Teaching Hospitals
3. Addressing and Promoting Transparency in SUNY Foundations

I would find it difficult for you to disagree with any of these concerns and ask you to please donate to Vote Cope. Your contribution of as little as $1.00 per paycheck will help support our efforts in making progress towards these critical issues.

If you would like further information on Vote Cope, please stop by our Chapter Office on the north campus - The Commons, Suite 108.

Otherwise, please fill out the following form and send it to our Chapter Office for processing.

Thank You for your reconsideration and participation

In Solidarity,

Kenneth H. Kern
Chapter President

The Buffalo Center UUP derives its strength from its membership. The Department Representative Program is designed to reach ALL members. The Department Representative Program is needed to ensure two-way communication between chapter leadership and the chapter membership. Department Representatives are essential to the success of the chapter, and are the eyes and ears of the chapter.

Department Representatives serve as chapter leaders and internal organizing leaders at their specific worksites. As a Department Representative you help develop and maintain a strong union presence in every part of the University via effective employee advocacy, union visibility, union site meetings and other forms of communication, including social conversation and the sharing of news.
